The "JUNEBEACHING CONFLICT."—The N. Y. Courier and Empire, commenting upon the proceedings at Charleston, very justly remarks:

"There were no Compromises, the one Democratic and the other Republican, at Charleston, save of the one, now, saying there, that could not be said of the other. That is, that is now progressing in the midst of one, Democratic, in Charleston at Charleston, is in fact evidence of the fact that the South has not yet made up its mind to let the one slavery platform go, but the one slavery platform, and the other slaves half-and-half."

The Democratic papers are wonderfully quiet, just now, about the "nationalism" of the Republican party.

AN HONEST LANDLORD.—During the past season an artist named Fiske Wight, visited the White Mountains for the purpose of making sketches of the scenery, and boarded with his family at a public house kept by T. C. GARDNER BEAUSIS. When he left he was indebted to his landlord \$35, and left one of his sketches in pledge for payment. Mr. BEAUSIS sold it for \$25, and advertised in the New York Evening Post, that if Mr. Wight will make known his whereabouts or draw on him for the balance of \$30 it will be forthcoming. This is an evidence of honesty that is worth recording. We hope he will be successful in finding the owner of the money.

RACINE CITY ELECTION—REPUBLICAN TRUMPER.—The Racine Charter election, on Thursday, resulted in the success of the entire Republican city ticket, and a majority of the Supervisors, &c. The average Republican majority on the city ticket was nearly two hundred. The Mayor elect is Mr. J. CASE.

WAUKESHA ELECTION—ANOTHER REPUBLICAN VICTORY.—The Republicans made a clean thing of it, at their charter election on Tuesday. They carried their entire ticket, electing Mr. BLAIR, President of the village over Geo. C. PRATT, by 73 majority. Good for Waukesha.

BATHER A FATAL FOY.—DVRVY L. CLARK OF KY., the late minister to Guatemala, is the third U. S. Envoy who has died there within four years, his predecessors being JOHN L. MARSHALL, of Tenn., and ARAHAM W. VENABLE, of N. C.

KANSAS CITY—REPUBLICAN VICTORY.—The Republicans of Kansas City have elected DR. WHALEY their candidate for Mayor, by 150 majority. This is a great triumph in a once noted hotbed of Border Ruffians.

A Prophet Fulfilled.

In the state at Gauleyburg between Douglass and Lincoln, in 1858, the former dwelt upon the sectional character of the Republican organization. You have seen the speech of the Southern people, and the Northern people, and the Southern institutions. \* \* \* No political creed is sound which cannot be discredited easily in every State of the Union. Mr. Lincoln in reply said, "I do not think that the South did not then, and could not lay his finger upon anything in the Republican Platform that was wrong or that entitled it to the appellation of sectional." But the old enemies he could point to in the Southern portion of the Union there are people who will not let Republican doctrines be proclaimed among them. Mr. Lincoln argued that this was no test of the soundness of nationality or of a political doctrine, and added:

"I fix his attention, also, to the fact that by the rule of nationality it is himself fast becoming sectional. I ask his attention to the fact that his speeches, and not to the fact that the old enemies he could point to in the Southern portion of the Ohio river, they have formed quite there. I ask his attention to the fact that he felicitates himself to-day that all the Democrats of the free States are in agreement with him, and that he has got of this a title to his administration the evidence of his own declaration, on this day, of his becoming sectional too. I set it rapidly approaching. Whatever may be the result of this "political creed" before he gets to the Ohio river, I ask his attention to the fact that he will maintain their place as favorites against all others.

D. GOLDEN MURRAY, Esq., (No. 62 South street,) is the agent for WALTER BAER & Co.'s list, and whoever desires courtesy, fairness, and a just return for their money, will make it a point to seek and deal with these gentlemen for the well-warranted goods to which we refer.

DETROIT FIRE AT CHICAGO.—The Chicago Daily Times of yesterday, contains the following:

"A very disastrous fire occurred in Detroit yesterday morning—one of the most destructive fires in the city ever experienced. A destruction of the property, which included business houses, and very serious personal loss in the interruption of their business and suspension of their plants. The extensive and handsome store of Harrel, King & Co., which had been established in 1852, was entirely destroyed, and in less than an hour the entire side of that fine and spacious building was ruined. Most of the goods and the firm had an extensive and valuable stock on hand—were destroyed, and the value of the property is estimated at \$100,000."

HATS AND CAPS.—See what BENEDICT has to say this morning about Hats and Caps. He proposes to furnish these necessary articles at astonishingly low prices.—BENEDICT's store (remember) is 162 East Water street.

REUNION.—There was another false alarm of fire last night, yesterday, the 2d. It was, as usual, ringing for half-dozed different districts, and the flames running all about the city in search of the fire.

THE HORSE RAILROAD.—Work on the Horse Railroad is rapidly prosecuted. The track is laid a good ways down East Water street.

FAIR ALARM.—There was another false alarm of fire last night, yesterday, the 2d. It was, as usual, ringing for half-dozed different districts, and the flames running all about the city in search of the fire.

## THE SENTINEL.

DAILY, TWEEKLY & WEEKLY  
RUFUS KING, EDITOR.  
THURSDAY MORNING, MAY 3, 1860.

Our "Secession" Friends at Charleston.  
The "National Democratic" party are holding a protracted meeting at Charleston. Already they have ten or eight days in session—a thing unexampled in the history of political conventions—and the prospect of an agreement between the contending factions is as remote as ever. The Convention is to meet again between the 20th and 22d—it is the South against the North, and Slavery is the dividing line.

Whatever be the issue of the conflict, the Republican papers have a good time in prospect. Their opponents have furnished them with abundance of ammunition. All we shall have to do, during the canvass, will be to republish the eloquent leaders of the Democratic press for the last four years—against "secession." Whoever shall be the nominee, or whatever the platform adopted at Charleston, must bear the brand of "secession." The "Bloody Instructions" taught by the Democratic press these last four years, have returned "to plague the inventors." The "poisoned chalice" of "secession" is "recommended to their own lips."—And the very faces they make in swallowing the dose, are a sight to see.

How We Live and Learn under Democratic Judges.

Judge Tandy nullifies the Ordinance of 1850, on the ground it does not say what it means. Judge Caneau, Schenck, and Clark, have no objection to the ground that it does not agree with their notions of "equality and justice." That is all that can be said for it, except for consistency with the Constitution, is now exploded.—Afternoon Journal.

And yet it is to the decisions of these Pro-Slavery Courts that the Douglass must at Charleston professed unabashed submission, as a consideration to the South for the nomination of Douglass. But the South would not be content with this—they insisted that the Democrats of the North should acknowledge and adopt, in advance, the doctrine which our Federal Courts are expected to lay down, and to incorporate the *dicta* of Judge Tandy into the Democratic platform. This was a little too strong for the Northern delegates, though they were ready enough to swallow it diluted.

A wise "Saying."

Gov. Wise expresses his opinion of matters at Charleston, to the effect that if Douglass receives the nomination he will be defeated, and that such an event will be the death and burial of the Democratic party.—He thinks that Hunter is a popular man enough, that Breckinridge is not the proper man, and Gen. Lane no better."

No doubt this opinion of Gov. Wise is somewhat influenced by the fact that he himself was an aspirant for the nomination, and that his pretensions were rejected by his own State, notwithstanding his gallant exploits at Harper's Ferry.

Mr. F. P. Frazee—The *Independent*, undoubtedly the most advanced section of the Republicans of the Free Congressional District. They state no trust, but are well informed, and never found wanting.—Noticed.

The Republicans of this Congressional District must indeed be a *bold* lot, to venture into a large number of seats.

There are very few members of Congress, who, for the last "four years," have been better known, or more generally liked at Washington, than John F. P. Frazee. He has been "trial'd" in a "maneuvre" entirely satisfactory to his constituents and his reputation has become a national one. The contemptible efforts of a few reckless partisan prints to destroy Mr. Frazee, has had the effect of commanding him still more strongly to the commands and support of the People.

Don't LIKE THEM AS MUCH AS HE DID.—In one of his earlier Charleston letters, "Saxon," the fragrant correspondent of the *Advertiser*, expressed, in very glowing terms, his admiration of "the niggers," especially the slaves, whom he represented to be the "nirvana" of the colored race. A change, however, seems to have come over him, for in the *Saxon* of yesterday he writes this:

"Among the leaders of the movements of the last four years, none women than I have seen in the city. There is more style and dress, than I have ever seen in any place, my greater objection is in the equality of the race. The black whites are to nearly on level—equal and above."

"Equality" is such an "aristocratic" idea, that no wonder it shocked the sensitive nature of so pure and consistent a Democrat as "Saxon."

UNFORTUNATE LEAVES-TAKERS.—On Thursday last, says the Cork *Constitution*, over 400 migrants took their departure from this country for America by the mail steamers which left Queenstown for New York and Portland. While the steamer was in that harbor, a number of country people, friends of the emigrants, accompanied them on board to bid them farewell, intending to return either by boat or by one of the steam tenders, which they supposed would remain along side. To their dismay, however, the mails being placed aboard, the steamers got under way, being bound under heavy penalties to be on the route by a given time, and before any means could be procured to send the parties ashore, the steamers were en route to America, having 26 of them on board. Some of these unlucky individuals, who have now a journey of some five thousand miles before them to America and back, had actually left their carts and some of the members of their families behind them in Queenstown, and the inconvenience and alarm occasioned by the unadvised trip to which they have been treated may easily be imagined.

THE VISIT OF THE PRINCE OF WALES.—It appears from an article in the London *Morning Herald*, a high Tory authority, that the visit of the Prince of Wales to Canada, is likely to be extended to the United States.

"The visit of the Prince of Wales to Canada," it says, "will be fraught with the best consequences." To him it will open new fields of observation, a new harvest of knowledge, and that the best, because practical. It will afford opportunities for applying and perfecting scholastic learning, and it will supply a treasure-house of redaction and consideration hereafter. With our colonists this visit will serve even higher and grander purposes, for it will effect the past, certify the present, and ensure the future." But the *Herald* trusts that the progress of his Royal Highness will not be limited to the British colonies, and is quite sure that in every part of the United States of North America, the Prince will find a welcome.

THE LAST MISSISSIPPI RIVER STEAMBOAT DISASTER—TWENTY-FIVE LIVES LOST.—The St. Louis *Democrat* contains the full particulars of the burning of the steamboat A. T. Lacy, on the Lower Mississippi, on Thursday night. The boat caught fire from a brazier of hay that was accidentally ignited. All the cargo, a very valuable one, was lost, and the boat is a total loss. Not less than twenty-five lives were lost either by fire or water. Capt. Lacy's family was on board, and one of his sons, a boy of twelve, was drowned. The rest of the lost were deck passengers, whose names were not known. The boat was valued at \$60,000.

WISCONSIN EDITORIAL ASSOCIATION.—The Free Annual Meeting of the Wisconsin Editorial Association will be held at Green Bay, on Wednesday, June 16th, at 12 M. An address will be delivered by Hon. C. L. Sholes, and a poem by Prof. J. W. Hoyt, of the Princeton Anti-A. No. 1, Poly. Soc., pay a proper tribute of respect to the memory of the late Marcus A. Mall.

It is hoped that every editor in the State will be present.

## HISTORY OF THE BATTLE.

## THE Fight for the Championship.

From the London *Times* of the 15th.

There was a time when the Championship of England was an honor which conferred honor of the highest, when "Marshall, Lord of Schrevalys of Tynne" was the champion of the Abbey town, and the lands of the Abbey of Faversham, in combat against all knightly enemies of his King. The fashions of this office, have passed away with the days of chivalry, and lance and battle-axe have been relegated to the bottom of shelves and no more needed by men. The Knights are still extant, but the modern Champions of England know them not, and the pageant warrior who threw down the gauntlet to the champion, and laid claim to a crown, has disappeared. There was no lack of royal patronage for the new race of Champions. In Brougham's last fight, he was backed by the Duke of Cumberland, who almost acted as his second, and few great lords have been with him since. At which point the Duke of George, now not present, Sir Thomas Aprice, nearly always seconded Guill, until he was banished from the ring, and having obtained a large fortune, went to the County of Cork, for Fontfract. In those days a certain knight was thought good company for any man, and we hear, almost without surprise how, about forty years ago, Lord Stamford "assisted" Guill when he fought Burke in the churchyard of St. Georges, and were, in the presence of 10,000 spectators. Those were the "old days," the "palmy days" of the ring, about which the sporting journals wrote, always so patriotic as the sportsmen were, as good as good gets. Tom would have secured Sayers yesterday, as Lord Deerhurst used to second Spring; and what would be said now of a cathedral town offering, as of old, £500 to the combatants to beat them selves to death, with its reverend services?—

The new police act was the death of pugilism. Its greatest professors now lead a hards-and-core life while training the forte of their chivalry, and the contests are far from being equal, though it has been just now for a time arrested by the first attempt to carry off the Champion's belt into another country; and, of course, that counts.

Tom, however, continuing the fact.

This round, however, was not so good.

Tom, however, was not so good.

**Presidential Election!**  
**THE GREAT CAMPAIGN**  
IS AT HAND!!

Let Every Republican Prepare  
for the Conflict!!

Circulate Truth among the People!!

**THE WEEKLY SENTINEL**

Six Months for Less than Cost of  
Paper and Printing!!!

**READ AND BE CONVINCED!**

The approaching campaign is to be a memorable one. The battle will be fought mainly between the friends and the enemies of Freedom, and the ground contested much by them. In view of these facts, it is apparent that the dissemination of Republican papers and documents becomes of vast and vital importance. In order to furnish the **WEEKLY SENTINEL** to the people of the North-West, during the Campaign of 1860, we have concluded to offer the paper, from the 10th of MAY to the 16th of NOVEMBER, at the following unprecedented liberal terms:

One Copy for - \$0.00  
Twenty Copies, to one address - \$0.00  
Fifty Copies - \$0.00  
One Hundred - \$0.00  
Two Hundred - \$0.00  
Three Hundred - \$0.00  
These terms will hardly cover the cost of paper before it is printed; but we have determined to put the price so low that every individual H.-publican, or organized Club, in the State, without the **SENTINEL** during the Campaign. Wherever facts are read, and the people have access to truth, Republicans prevail.

Send to your orders as early in May as possible. **Box Address**

## Michigan Republican State Convention.

**DETROIT, May 2—3 P.M.**—The Republican State Convention met in this city to-day and appointed Austin Blair, Walter W. Murphy, Thomas W. Terry and Jas. S. Clark delegates at large to the Convention. The following resolutions were adopted:

Resolved, That we, the Michigan delegation, do not support the nomination of Mr. Douglass, and that we do not support the nomination of Mr. Slidell, and that we do not support the nomination of Mr. Davis.

Mr. Howell and Mr. Austin Smith made some remarks about the position of the California Democracy. Mr. Howell spoke further in a similar strain, and said he believed that the state to be the noblest of the mountain states in the world. He had no record direct from Africa on his plantation, and they were the noblest known of the world.

Mr. Howell, of South Carolina, says there is nothing to warrant Southern delegates for voting.

He (Howell) was opposed to Senator Sumner, but was willing to take the Cincinnati platform and endorse the Dred Scott decision.

Mr. Richardson of Ill. endorsed the statement made by Edward of Ga., of a compact between the North and South after passing the Kansas bill. As far as our property or our slaves, as far as we are ready to lay them down, we do not make a demand on our master or our honor.

Henry of South Carolina (missing from the gallery). Cries of "treason" the gallant Southerners. The present administration and the Union are presented as the Douglass wing of the party. It is asserted that if possible, he asserted that it was agreed that nothing more was required than the endorsement of the decisions of the Supreme Court. The Douglass wing is to be supported. If they will not endorse the Dred Scott decision, they will be led to bring the Southern States all into harmony and union.

Mr. Howard, of Tennessee, spoke in behalf of that State, and presented a resolution that no person or property in the Territories shall be injured by Territorial or Congressional legislation. He offered an amendment to the Constitution that a two-thirds vote of the Electoral College shall be required for nominating. The Southern wing now is resolved to stand alone. They have passed unanimously our resolution. They have perfect confidence and have resolved to wait for the election.

Mr. Russell, of Ky., presented the report of the examination. They endorse the course taken by Tennessee, and if the resolutions presented by the Douglass delegation are not adopted, authorizing to cast the vote of the State on any subject.

Mr. Colwell, of Ky., endorsed the ground taken by Tennessee, and that the resolution presented by the Douglass delegation shall receive not less than 200 votes as requisite for the nomination. He moved to adjourn till ten o'clock to-morrow.

Mr. Mitchell demanded that the vote on the resolution fixing the time for balloting be deferred.

Several motions to adjourn caused much confusion, and a vote was demanded by Shadwell.

Mr. Giddings, of Md., gave notice that 50 of the delegation did not take a recess, he would move to adjourn sine die.

On taking the vote, the Georgia delegation voted the full vote of the State, which was objected to, and after some debate, the President called for a vote on the question, but the motion to adjourn was carried.

Mr. Hilditch appeared from the delegation, contending that they were carrying out the instructions of the State, while the belts were to be left later, and here vote not be held, and they were not present. It was no fault of those who were present.

A vote of States was demanded. The result was yes 148, noes 140. Thereinafter Georgia delegates took their seats, declaring that the Convention had disassociated itself from the nation.

The motion to adjourn till 6 P.M., was voted and carried.

**EVINING SESSION.**—The convention resumed at five o'clock. The vote was again taken on the question, and the proposition to proceed to ballot for President—Adopted—yes 148, noes 103.

The resolution offered by Tennessee, requiring that the present convention shall not deliberate and vote on the election of President, if the same shall have received 202 votes or more, was called up.

Mr. Richardson, of Ill., moved to lay it on the table. Lost—yes 101 1/2, noes 145.

Mr. Stuart, of N. Y., was the point of order, and the resolution was then voted down.

Mr. Hilditch appealed from the decision, contending that they were carrying out the instructions of the State, while the belts were to be left later, and here vote not be held, and they were not present. It was no fault of those who were present.
